Question 2	
Do you agree with the proposed criteria for the selection of Local Heritage Assets? The criteria are set out at Paragraph 13 of this document. Please tick yes or no and add any additional comments in the comment box.	Yes

Additional comments for Question 2

We are an ancient Spa Town, with all the assets of one, such as water features, shopping precincts, residential architecture etc. In addition we have traces of the old manufacturing process known as Tunbridge Ware, which we are keen to record.

Question 3

Do you generally agree with the proposed process of identifying and agreeing Local Heritage Assets? Yes
The process is set out at Paragraph 14 of this document. Please tick yes or no and add any further comments in the comment box.

Additional comments for Question 3

But we would like to draw attention to such normally overlooked matters, such as - red brick pavements, red pillar boxes, street gas vents, old street lighting, the old 17th century town and the new 19th century town, caves, parks and gardens, the Commons, cemeteries and the importance of historic vistas and skylines.

Question 4

If you have any further general comments on any aspect of the document, please make them in this comment box.

We see the importance of this as lying in those parts of our heritage which have so far gone unrecorded. The built environment is to a large extent recorded already (though this could be improved). What we seek to capture are those bits of our history which so far might have seemed obvious to us, that they have gone un-remarked and therefore un-recorded. There follows that the conservation area might be extended to include new findings.
